

The Center for Public Genomics, Duke University
Publication List

Note: We have provided links for all articles with free online versions. For new Key Publications that do not have free online versions, and for which we have not previously provided a copy, we have included hard copies at the end of this report.

Article Categories

Key publications: Substantially based or drawing directly on Center for Public Genomics Research or multi-CEER activities.

Additional publications: Somewhat related, but primarily based on other research. Not counted as CPG publications, but the grant nonetheless contributed.

Forthcoming publications: Pieces accepted for publication in any medium (peer-reviewed or non-peer-reviewed journals, books or book chapters, edited volumes, websites, etc.) but not yet published.

Table of Contents
