DUKE UNIVERSITY

GRADUATION EXERCISES

WALLACE WADE STADIUM

Sunday, the Eleventh of May, Two Thousand and Three
Ten O’clock in the Morning
NOTES ON ACADEMIC DRESS

Academic dress had its origin in the Middle Ages. When the European universities were taking form in the thirteenth and fourteenth centuries, scholars were also clerics, and they adopted robes similar to those of their monastic orders. Caps were a necessity in drafty buildings, and cope or capes with hoods attached were needed for warmth. As the control of universities gradually passed from the church, academic costume began to take on brighter hues and to employ varied patterns in cut and color of gown and type of headdress.

The use of academic costume in the United States has been continuous since Colonial times, but a clear protocol did not emerge until an intercollegiate commission in 1893 recommended a uniform code. In this country, the design of a gown varies with the degree held. The bachelor's gown is relatively simple with long pointed sleeves as its distinguishing mark. The gown for the master's degree has an oblong sleeve with the rear part cut square and the front part with a cut-away arc. The most elaborate academic costume is the doctoral gown with velvet panels down the front and three bars of the same material across the sleeves. The velvet is usually black, but it may be a color designating the field of study to which the degree pertains. The gown itself, usually black like those of the lower degrees, may be of a color distinctive of a particular university.

The hood bears a still larger symbolic burden: the width of its velvet trimming designates the level of the degree; the color heralds the major field of study; and the lining identifies the institution that granted the degree. Duke University is symbolized by a lining of Duke blue with a white chevron.

The cap, originally round, is usually a square mortarboard and is the same for all degrees. The standard tassel for the cap is black, but the cap worn with the doctoral robe may have a gold tassel.

The Duke doctoral gown, worn today by candidates from the Graduate School and Officers of the University, and by several of the principals in the Exercises, is in the authentic Duke blue. The Duke University shield, embroidered in blue on white, is applied to each front panel. With this gown there may be worn a black velvet, four-pointed, soft tam with a square top and a gold metallic bullion tassel.

SIGNIFICANCE OF COLORS

Colors indicating fields of study and colors identifying some of the universities represented by members of the faculties of the University are:

MACE AND CHAIN OF OFFICE

Again at commencement, ceremonial use is made of two important insignia given to Duke University in memory of Benjamin N. Duke. Both the mace and chain of office are the gifts of anonymous donors and of the Mary Duke Biddle Foundation. They were designed and executed by Professor Kurt J. Matzdorf of New Paltz, New York, and were dedicated and first used at the inaugural ceremonies of President Sanford in 1970.

The Mace, the symbol of authority of the University, is made of sterling silver throughout. It is thirty-seven inches long and weighs about eight pounds. At the lower end of the hammered shaft is a gilt (gold-plated) pine cone. The upper end of the shaft displays the inscription Universitas Dukiana 1838. This inscription is surmounted by a short, hammered neck followed by the head which has eight flutings alternating with eight gilt ribs. Above the head of the mace, a band carries the motto of Duke University: Erudition et Religio. The upper end of the mace is a crown of gilt laurel leaves which carries the seal of Duke University surrounded by the three symbols of the Trinity to indicate that Duke University emerged from Trinity College.

The Chain of Office of the President of Duke University is four feet long and is also made of sterling silver throughout. The main part consists of nine silver pine cones alternating with ten gilt clusters of three laurel leaves each. In the front hangs the gilt medallion with the official seal of Duke University surrounded by a laurel wreath into which are set the three symbols of the Trinity. In the back is the gilt coat of arms of the Duke family with the motto In Adversis Iam set in a sterling wreath of laurel leaves and bearing the inscription Duke.
Order of Procession

The audience remains seated during the procession until all candidates enter the stadium. When the Wind Symphony sounds the fanfare which signals the entrance of the faculty, the audience and candidates will rise and remain standing for the prayer and the hymn.

Flourish for Wind Band ................................................................. Ralph Vaughan Williams
John R. Guitill, Conductor

THE INVOCAITON................................. William H. Willimon
Dean of the Chapel

HYMN—Tune: St. Anne

1. O God, our help in ages past,
   Our hope for years to come,
   Our shelter from the stormy blast,
   And our eternal home!

2. Before the hills in order stood,
   Or earth received her frame,
   From everlasting Thou art God,
   To endless years the same.

   3. A thousand ages in Thy sight,
      Are like an evening gone;
      Short as the watch that ends the night,
      Before the rising sun.

   4. O God, our help in ages past,
      Our hope for years to come;
      Be Thou our guide while life shall last,
      And our eternal home! Amen.

—Isaac Watts
(1674-1748)

CLOSING ANNOUNCEMENTS................................................................. Gerald L. Wilson

ALMA MATER

The audience stands for the Alma Mater and remains standing until the platform group and the faculties leave the Stadium.

   Dear Old Duke, thy name we sing,
   To thee our voices raise, we'll raise,
   To thee our anthems ring
   in everlasting praise.

   And though on life's broad sea
   Our fates may far us bear,
   We'll ever turn to thee
   Our Alma Mater dear.

—R. H. James '24

HONORARY DEGREE RECIPIENTS

Frank L. Bowman – Doctor of Humane Letters
Faculty Sponsor - Kristina M. Johnson  Trustee Sponsor - John J. Mack

U.S. Navy Admiral Frank L. “Skip” Bowman, who began his distinguished naval career after graduating from Duke in 1966, is the director of the Naval Nuclear Propulsion Program. He oversees the design, development, procurement, operation, and maintenance of all of the nuclear propulsion plants that power the Navy’s fleet of nuclear warships. He is also responsible for the research and development of designs for future warships. Bowman, who earned master of science degrees in nuclear engineering and naval architecture/marine engineering from the Massachusetts Institute of Technology, is also a graduate of the Kennedy School of Government at Harvard. In a naval career spanning more than three decades, he has served as commander of the USS City of Corpus Christi and has held senior policymaking roles with the Joint Chiefs of Staff, among others. Bowman has won numerous awards for his leadership, and has been widely recognized for his commitment to diversity in education and the military. Twice, he has been awarded the Distinguished Service Medal, the military’s highest non-combat decoration. Bowman serves on the Board of Visitors for the Pratt School of Engineering.

Judy Chicago – Doctor of Fine Arts
Faculty Sponsor - Richard J. Powell  Trustee Sponsor - Christine M. Durham

Judy Chicago, renowned for championing the idea that art is a vehicle for intellectual transformation and social change, pioneered feminist art and art education in the early 1970s. The Feminist Art Program, which she helped establish in California, produced the first art installation with an openly female point of view. Her most famous work, The Dinner Party, is a multimedia project that traces the history of women in Western civilization. The work, which involved the participation of hundreds of volunteers, has been seen by more than a million people during fifteen exhibitions in six countries. Chicago is the author of seven books, including Through the Flower: My Struggle as a Woman Artist and Beyond the Flower: The Autobiography of a Feminist Artist. In 1996, the Arthur and Elizabeth Schlesinger Library on the History of Women at Radcliffe College became the home to Chicago’s papers. She is the first living artist to be included in this important archive. In the fall of 2000, she served as an artist-in-residence at Duke and the University of North Carolina at Chapel Hill. Chicago earned her bachelor’s and master’s degrees from the University of California, Los Angeles.

Richard D. Klausner – Doctor of Science
Faculty Sponsor - Ralph Snyderman  Trustee Sponsor - Rebecca Trent Kirkland

Dr. Richard D. Klausner is the executive director of the global health program at the Bill and Melinda Gates Foundation, whose overarching goal is to improve global health equity. Previously, as director of the National Cancer Institute, he oversaw one of the world’s largest programs in clinical trials, drug development, and epidemiology. Klausner held additional high-ranking posts in the scientific community, including president of the Case Institute of Health, Science, and Technology; senior fellow at the National Academies of Science; adviser to the Presidents of the Academies for counter-terrorism; and liaison to the White House Office of Science and Technology Policy. Klausner is well known for his work in cellular and molecular biology, and on the ways molecules are transported within cells and communicate with one another. He has written several books and almost 300 articles in scientific journals. In the mid-1990s, he led a national committee responsible for writing standards for science education for U.S. students in kindergarten through twelfth grade. Klausner graduated summa cum laude from Yale University with a bachelor of science degree and earned his M.D. from Duke in 1976. In 1994, he was the recipient of the Duke Distinguished Medical Alumnus Award.

Charles L. Reinhart – Doctor of Fine Arts
Faculty Sponsor - Ruth S. Day  Trustee Sponsor - Kimberly J. Jenkins

Charles L. Reinhart is the president and co-director of the American Dance Festival, which has been based at Duke for the past twenty-five years. His career in the arts spans an even longer period, with Reinhart working as an arts producer, manager, festival director, consultant, and manager since 1955. In the 1960s, he managed several internationally renowned dance companies, including the Paul Taylor Dance Company. He became president of the dance festival in 1968. In 1996, he and his late wife, Stephanie, became co-artistic advisers for dance to the Kennedy Center. Reinhart is vice president of the World Dance Alliance and a member of the board of directors of The Anglo-American Contemporary Dance Foundation and the Theatre Development Fund, where he is chairman of its dance committee and a member of the Astaire Awards Jurys. In 1985, he won the Morrison Award for service to the arts in the state of North Carolina; one year later, the French government honored him for his efforts to introduce French modern dance to the United States. Reinhart also received Dance/USA’s 1994 honors for lifetime achievement in dance. He earned a bachelor of arts degree from Rutgers University.

Duke University traces its origin to 1838 when Brown's Schoolhouse, a one-room log subscription school, expanded to Brown Institute upon the unifying of Methodist and Quaker families. Today's ceremony represents the one hundred and fifty-first official exercise dating from 1852 when action of the North Carolina General Assembly authorized the institution to grant degrees. Throughout the years graduation exercises have varied in scope, sometimes offering as much as a week of celebration to the graduates, their families, and citizens of rural Randolph County, North Carolina, the site of the predecessor institutions to Duke University located near High Point. This weekend the exercises follow traditions established in that first decade of official ceremonies by recognizing graduation with distinction and noting recipients of special honors and prizes, by featuring a speaker from the graduating classes, by awarding honorary degrees, by offering Bibles to those receiving undergraduate degrees, and by having the faculty and administration honor the graduates and their families with an outdoor reception.

Notable ceremonies in the nineteenth century included those of 1859 when President Braxton Craven presented diplomas reflecting a name change to Trinity College to acknowledge the institution's church-relatedness, of 1877 when the first earned M.A. degrees were awarded, and of 1878 when Mary, Persis, and Theresa Giles earned degrees, becoming the first women graduates of the College. Student orations in 1888 by Daniel C. Roper and John Spencer Bassett demonstrated leadership in the graduating classes in that Roper became Secretary of Commerce under President Franklin D. Roosevelt and Bassett became a scholar of note in American history. In 1903 while professor at Trinity College, Bassett and Trinity's name became forever associated with the history of academic freedom. The College's Board of Trustees turned back widespread appeals for Bassett's dismissal when editors he wrote for the scholarly journal, *The South Atlantic Quarterly*, questioned the then-prevailing views on race relations. Dormitories on East Campus were named in honor of the Giles sisters and Bassett.

The leadership of President John F. Crowell, the donation of land by Julian S. Carr, and the financial assistance of Washington Duke made possible the relocation of Trinity College to Durham in 1892. Within a decade Trinity College established a reputation for excellence, confirming President Crowell's opinion that higher education in the twentieth century would progress best in an urban setting, especially one with enlightened, progressive leadership. The College received numerous gifts for buildings, beautification, and even salaries for personnel from the Duke family, but especially welcome were three separate gifts of $100,000 each from Washington Duke for endowment.

In addition to the celebrated Bassett Affair, Trinity College gained a national reputation as a founding member of the Association of Colleges and Preparatory Schools of the Southern States, an accrediting agency that would upgrade educational standards in the region. Further recognition followed with membership in 1905, along with only one other southern institution, in the Association of American Law Schools; with the selection of Charles R. Bagley, Class of 1914, as the school's first Rhodes Scholar; and with the establishment of a Phi Beta Kappa chapter in 1919.

Graduation ceremonies became more formal under the direction of College Marshal. Caps and gowns appeared, and after 1902 students received Latin honors in recognition of academic achievement. With appropriate ceremony the college paid homage to Washington Duke, who had died in 1905, with the unveiling of his statue at the commencement of 1908.

For thirty years William Preston Few provided distinguished leadership for the institution. Rarely has an institution changed as dramatically under the tenure of a single president. From 1910 to 1942 Few presided over the development of a particularly strong liberal arts college, and from 1924 until his death in 1940 he directed the successful transition to a complex, research university. In December 1924 long-range planning and a lifetime of family philanthropy culminated in the public announcement of a grand design to aid higher education, hospitals, orphanages, and the Methodist Church in North and South Carolina. Acknowledging the unique opportunity for a new identity presented by acceptance of the terms of the indenture of The Duke Endowment, the Board of Trustees of Trinity College enthusiastically agreed to organize a new institution around Trinity College. The enlarged institution was to be known as Duke University in honor of Washington Duke, benefactor and father of Mary, James Buchanan, and Benjamin Newton, all friends of the college in their own way.

Based upon the solid foundation of Trinity College, the University grew spectacularly. The old campus was rebuilt and opened as the Woman's College in 1930, and another campus was erected one mile to the west. The curriculum expanded and succeeding graduation programs noted new degrees: B.D. and M.Ed. in 1927, Ph.D. in 1928, and L.L.B. in 1929. The M.D. joined the list in 1932, and a B.S. in Engineering in 1933, a B.S. in Nursing in 1936, and a Master of Forestry in 1939. In 1938 in only its fourteenth year as a university, Duke became the thirty-fourth member of the prestigious Association of American Universities. The membership currently includes only 61 research universities.

The location of the graduation exercises themselves reflects the changing nature of the University. First held in Craven Memorial Auditorium on East Campus, they were moved to West Campus in 1931 and held successively in Page Auditorium and in the outdoor and indoor stadiums. Special ceremonies at commencement have included the laying of the cornerstone of the Gothic campus in 1928, the first use of the Chapel and the inaugural carillon and organ recitals in 1932, and the unveiling of the statue of James B. Duke in 1935. The exigencies of World War II required the awarding of degrees during the year in special ceremonies in a variety of locations.

Today's ceremonies reflect the interest of more recent presidents in combining tradition and innovation. President Douglas M. Knight directed special attention to the University's highest degree with the adoption of official academic regalia with a distinctive design and blue color for the Ph.D. degree. The mace and chain were authorized at the same time, but were first used in 1970 at the inauguration of President Terry Sanford. In 1972 the degree of Master of Business Administration, the last curriculum recommend by James B. Duke, joined the list of degrees awarded by Duke University. With ever-increasing participation by graduates and attendance by relatives and friends, President Sanford pursued new ways to continue a single university-wide convocation of undergraduate and graduate and professional school students which would still maintain traditional exercises. In a unique format baccalaureate services are offered three times, and the commencement exercises have now returned to an outdoor setting, first to Wallace Wade Stadium in 1974, to the East Campus quadrangle in 1980, and in 1984 back to the Stadium. Today President Keohane, installed on October 23, 1993, as eighth president of the University and thirteenth president of the institution, presides over her tenth commencement.

As noted by the Board of Trustees in 1924, "The institution has already had three names, and it has not always occupied its present site. But through all this outward change it has kept one soul, it has been guided by the same controlling faiths. Now it changes again to meet changing conditions." The traditions of graduation bind the University to all that has gone before. While guided by the motto *Erudition et Religio* for one hundred and forty-four years, the University continues "to change to meet changing conditions."
