NOTES ON ACADEMIC DRESS

Academic dress had its origin in the Middle Ages. When the European universities were taking form in the thirteenth and fourteenth centuries, scholars were also clerics, and they adopted robes similar to those of their monastic orders. Caps were a necessity in drafty buildings, and copes or capes with hoods attached were needed for warmth. As the control of universities gradually passed from the church, academic costume began to take on brighter hues and to employ varied patterns in cut and color of gown and type of headdress.

The use of academic costume in the United States has been continuous since Colonial times, but a clear protocol did not emerge until an intercollegiate commission in 1893 recommended a uniform code. In this country, the design of a gown varies with the degree held. The bachelor's gown is relatively simple with long pointed sleeves as its distinguishing mark. The gown for the master's degree has an oblong sleeve with the rear part cut square and the front part with a cut-away arc. The most elaborate academic costume is the doctoral gown with velvet panels down the front and three bars of the same material across the sleeves. The

velvet is usually black, but it may be a color designating the field of study to which the degree pertains. The gown itself, usually black like those of the lower degrees, may be of a color distinctive of a particular university.

The hood bears a still larger symbolic burden: the width of its velvet trimming designates the level of the degree; the color heralds the major field of study; and the lining identifies the institution that granted the degree. Duke University is symbolized by a lining of Duke blue with a white chevron.

The cap, originally round, is usually a square mortarboard and is the same for all degrees. The standard tassel for the cap is black, but the cap worn with the doctoral robe may have a gold tassel.

The Duke doctoral gown, worn today by candidates from the Graduate School, by Trustees and Officers of the University, and by several of the principals in the Exercises, is in the authentic Duke blue. The Duke University shield, embroidered in blue on white, is applied to each front panel. With this gown there may be worn a black velvet, four-pointed, soft tam with a square top and a gold metallic bullion tassel.

SIGNIFICANCE OF COLORS

Colors indicating fields of study and colors identifying some of the universities represented by members of the faculties of the University are:

Arts, Letters, Humanities—white	Cambridge—crimson
Business Administration—drab	Chicago—maroon
Divinity, Theology—scarlet	Columbia—light blue and white
Economics—copper	Duke—Duke blue and white
Education—light blue	Harvard—crimson
Engineering—orange	Johns Hopkins—black and old gold
Fine Arts—brown	North Carolina—light blue and white
Forestry—russet	Northwestern—purple and gold
Law—purple	Oxford—scarlet
Medicine—green	Pennsylvania—red and blue
Music—pink	Princeton—orange and black
Nursing—apricot	Stanford—cardinal
Philosophy—dark blue	Virginia—navy blue and orange
Science—golden yellow	Yale—Yale blue

MACE AND CHAIN OF OFFICE

Again at commencement, ceremonial use is made of two important insignia given to Duke University in memory of Benjamin N. Duke. Both the mace and chain of office are the gifts of anonymous donors and of the Mary Duke Biddle Foundation. They were designed and executed by Professor Kurt J. Matzdorf of New Paltz, New York, and were dedicated and first used at the inaugural ceremonies of President Sanford in 1970.

The Mace, the symbol of authority of the University, is made of sterling silver throughout. It is thirty-seven inches long and weighs about eight pounds. At the lower end of the hammered shaft is a gilt (gold-plated) pine cone. The upper end of the shaft displays the inscription *Universitas Dukiana 1838*. This inscription is surmounted by a short, hammered neck followed by the head which has eight flutings alternating with

eight gilt ribs. Above the head of the mace, a band carries the motto of Duke University: *Eruditio et Religio*. The upper end of the mace is a crown of gilt laurel leaves which carries the seal of Duke University surrounded by the three symbols of the Trinity to indicate that Duke University emerged from Trinity College.

The Chain of Office of the President of Duke University is four feet long and is also made of sterling silver throughout. The main part consists of nine silver pine cones alternating with ten gilt clusters of three laurel leaves each. In the front hangs the gilt medallion with the official seal of Duke University surrounded by a laurel wreath into which are set the three symbols of the Trinity. In the back is the gilt coat of arms of the Duke family with the motto *In Adversis Idem* set in a sterling wreath of laurel leaves and bearing the inscription *Duke*.

Order of Procession

The audience remains seated during the procession until all candidates enter the stadium. When the Wind Symphony sounds the fanfare which signals the entrance of the faculty, the audience and candidates will rise and remain standing for the prayer and the hymn.

HYMN—Tune: *St. Anne*

- | | |
|---|--|
| 1. O God, our help in ages past,
Our hope for years to come,
Our shelter from the stormy blast,
And our eternal home! | 3. A thousand ages in Thy sight,
Are like an evening gone;
Short as the watch that ends the night,
Before the rising sun. |
| 2. Before the hills in order stood,
Or earth received her frame,
From everlasting Thou art God,
To endless years the same. | 4. O God, our help in ages past,
Our hope for years to come;
Be Thou our guide while life shall last,
And our eternal home! Amen. |

ALMA MATER

The audience stands for the Alma Mater and remains standing until the platform group and the faculties leave the Stadium.

Dear Old Duke, thy name we sing,
To thee our voices raise, we'll raise,
To thee our anthems ring
in everlasting praise.

And though on life's broad sea
Our fates may far us bear,
We'll ever turn to thee
Our *Alma Mater* dear.

HONORARY DEGREE RECIPIENTS

Andrew Jackson Young, Jr. - Doctor of Laws

Faculty Sponsor - William H. Chafe

Trustee Sponsor - Wilhelmina M. Reuben-Cooke

Andrew Young has spent more than forty years in public service. Born in New Orleans, he graduated from Howard University and then Hartford Theological Seminary. He pastored in small Congregational churches in the South before moving to New York City. In 1961, he went to Atlanta to work in the offices of Martin Luther King Jr.'s Southern Christian Leadership Conference. As executive director of the SCLC, he became a major player in the historic events that led to desegregation. He applied his organizational talents to SCLC efforts in Albany, Birmingham, Washington, D.C., Selma, Chicago, and Memphis.

*Young has seen himself and his colleagues in the civil rights movement as agents of transformation, not as radicals or revolutionaries. As he wrote in his memoir, *An Easy Burden: The Civil Rights Movement and the Transformation of America*, "Racism, war, and poverty were anchors dragging on our society, preventing us from reaching our full potential.... We accepted the challenges of detaching those anchors. We knew it was a burden, but we believed it was an easy burden in a country as great as ours."*

Elected to Congress in 1972, Young became the first African-American representative from Georgia since Reconstruction. He served three terms in the House. In 1977, he was named U.S. ambassador to the United Nations by President Carter. During the 1980's he was elected to two terms as mayor of Atlanta. In 1990, he was instrumental in bringing the Olympic Games to Atlanta as co-chair of the city's Organizing Committee for the Olympic Games. Five years ago, President Clinton appointed him to chair the new Southern African Enterprise Development Fund, founded to establish small- and medium-sized businesses throughout the region.

Concerned with issues of justice nationally and internationally, Young has been called the exemplary "cosmopolitan Christian" by the Journal of Religious Thought. Among his many honors are the Presidential Medal of Freedom and the Legion d'Honneur from France.

Elizabeth Hanford Dole - Doctor of Humane Letters

Faculty Sponsor - Juanita Kreps

Trustee Sponsor - L. Neil Williams, Jr.

A native of Salisbury, North Carolina, Elizabeth Hanford Dole is a 1958 graduate of Duke University. She earned her degree with distinction in political science, the only one of the department's thirty-seven seniors that year to be so honored. As president of the Duke Woman's Student Government Association, she received "Leader of the Year" honors from The Chronicle. Among other accomplishments, the editorial cited her contribution to advancing a campus-wide honor code — an idea that is now being revisited. According to the editorial, "Miss Hanford maintained a sense of responsibility to those who elected her, a quality which forceful leaders often forget."

After Duke, Dole earned a master's degree from Harvard and then a law degree from the same institution. She went on to a distinguished career in public service, working for five U.S. presidents. As a childhood friend and a former mayor of Salisbury said about her, "She saw a place for herself in the world that pulled her to challenges other women of her day wouldn't even consider." She served as a staff assistant in the Department of Health, Education, and Welfare, and became executive director of the President's Commission for Consumer Interests. She was later appointed deputy director of the Office of Consumer Affairs, was named to the Federal Trade Commission, and subsequently became assistant to the president for public liaison.

In 1983, she joined President Reagan's cabinet as secretary of transportation. She also served as secretary of labor in the administration of George Bush becoming the first woman to head two federal cabinet agencies. She left the cabinet to become president of the American Red Cross, a post from which she resigned last year to pursue the Republican presidential nomination.

The university gave Dole its Distinguished Alumni award in 1988; she had served Duke as a trustee from 1974 until 1985. That same year, the Gallup Poll named her as one of the "World's Ten Most-Admired Women." In 1995, she was inducted into the Women's Hall of Fame.

THE TRADITIONS OF COMMENCEMENT

Duke University traces its origin to 1838 when Brown's Schoolhouse, a one-room log subscription school, expanded to Union Institute upon the uniting of Methodist and Quaker families. Today's ceremony represents the one hundred and forty-eighth official exercise dating from 1852 when action of the North Carolina General Assembly authorized the institution to grant degrees. Throughout the years graduation exercises have varied in scope, sometimes offering as much as a week of celebration to the graduates, their families, and citizens of rural Randolph County, North Carolina, the site of the predecessor institutions to Duke University located near High Point. This weekend the exercises follow traditions established in that first decade of official ceremonies by recognizing graduation with distinction and noting recipients of special honors and prizes, by featuring a speaker from the graduating classes, by awarding honorary degrees, by offering Bibles to those receiving undergraduate degrees, and by having the faculty and administration honor the graduates and their families with an outdoor reception.

Notable ceremonies in the nineteenth century included those of 1859 when President Braxton Craven presented diplomas reflecting a name change to Trinity College to acknowledge the institution's church-relatedness, of 1877 when the first earned M.A. degrees were awarded, and of 1878 when Mary, Persis, and Theresa Giles earned degrees, becoming the first women graduates of the College. Student orations in 1888 by Daniel C. Roper and John Spencer Bassett demonstrated leadership in the graduating classes in that Roper became Secretary of Commerce under President Franklin D. Roosevelt and Bassett became a scholar of note in American history. In 1903 while professor at Trinity College, Bassett and Trinity's name became forever associated with the history of academic freedom. The College's Board of Trustees turned back widespread appeals for Bassett's dismissal when editorials he wrote for the scholarly journal, *The South Atlantic Quarterly*, questioned the then prevailing views on race relations. Dormitories on East Campus were named in honor of the Giles sisters and Bassett.

The leadership of President John F. Crowell, the donation of land by Julian S. Carr, and the financial assistance of Washington Duke made possible the relocation of Trinity College to Durham in 1892. Within a decade Trinity College established a reputation for excellence, confirming President Crowell's opinion that higher education in the twentieth century would progress best in an urban setting, especially one with enlightened, progressive leadership. The College received numerous gifts for buildings, beautification, and even salaries for personnel from the Duke family, but especially welcome were three separate gifts of \$100,000 each from Washington Duke for endowment.

In addition to the celebrated Bassett Affair, Trinity College gained a national reputation as a founding member of the Association of Colleges and Preparatory Schools of the Southern States, an accrediting agency that would upgrade educational standards in the region. Further recognition followed with membership in 1905, along with only one other southern institution, in the Association of American Law Schools; with the selection of Charles R. Bagley, Class of 1914, as the school's first Rhodes Scholar; and with the establishment of a Phi Beta Kappa chapter in 1919.

Graduation ceremonies became more formal under the direction of a College Marshal. Caps and gowns appeared, and after 1902 students received Latin honors in recognition of academic achievement. With appropriate ceremony the college paid homage to Washington Duke, who had died in 1905, with the unveiling of his statue at the commencement of 1908.

For thirty years William Preston Few provided distinguished leadership for the institution. Rarely has an institution changed as dramatically under the tenure of a single president. From 1910 to 1924 Few presided over the development of a particularly strong

liberal arts college, and from 1924 until his death in 1940 he directed the successful transition to a complex, research university. In December 1924 long-range planning and a lifetime of family philanthropy culminated in the public announcement of a grand design to aid higher education, hospitals, orphanages, and the Methodist Church in North and South Carolina. Acknowledging the unique opportunity for a new identity presented by acceptance of the terms of the indenture of The Duke Endowment, the Board of Trustees of Trinity College enthusiastically agreed to organize a new institution around Trinity College. The enlarged institution was to be known as Duke University in honor of Washington Duke, benefactor and father of Mary, James Buchanan, and Benjamin Newton, all friends of the college in their own way.

Based upon the solid foundation of Trinity College, the University grew spectacularly. The old campus was rebuilt and opened as the Woman's College in 1930, and another campus was erected one mile to the west. The curriculum expanded and succeeding graduation programs noted new degrees: B.D. and M.Ed. in 1927, Ph.D. in 1928, and LL.B. in 1929. The M.D. joined the list in 1932, and a B.S. in Engineering in 1933, a B.S. in Nursing in 1936, and a Master of Forestry in 1939. In 1938 in only its fourteenth year as a university, Duke became the thirty-fourth member of the prestigious Association of American Universities. The membership currently includes only 61 research universities.

The location of the graduation exercises themselves reflects the changing nature of the University. First held in Craven Memorial Auditorium on East Campus, they were moved to West Campus in 1931 and held successively in Page Auditorium and in the outdoor and indoor stadiums. Special ceremonies at commencement have included the laying of the cornerstone of the Gothic campus in 1928, the first use of the Chapel and the inaugural carillon and organ recitals in 1932, and the unveiling of the statue of James B. Duke in 1935. The exigencies of World War II required the awarding of degrees during the year in special ceremonies in a variety of locations.

Today's ceremonies reflect the interest of more recent presidents in combining tradition and innovation. President Douglas M. Knight directed special attention to the University's highest degree with the adoption of official academic regalia with a distinctive design and blue color for the Ph.D. degree. The mace and chain were authorized at the same time, but were first used in 1970 at the inauguration of President Terry Sanford. In 1972 the degree of Master of Business Administration, the last curriculum recommended by James B. Duke, joined the list of degrees awarded by Duke University. With ever-increasing participation by graduates and attendance by relatives and friends, President Sanford pursued new ways to continue a single university-wide convocation of undergraduate and graduate and professional school students which would still maintain traditional exercises. In a unique format baccalaureate services are offered three times, and the commencement exercises have now returned to an outdoor setting, first to Wallace Wade Stadium in 1974, to the East Campus quadrangle in 1980, and in 1984 back to the Stadium. Today President Keohane, installed on October 23, 1993, as eighth president of the University and thirteenth president of the institution, presides over her seventh commencement, succeeding President H. Keith H. Brodie.

As noted by the Board of Trustees in 1924, "The institution has already had three names, and it has not always occupied its present site ... But through all this outward change it has kept one soul, it has been guided by the same controlling faiths. Now it changes again to meet changing conditions." The traditions of graduation bind the University to all that has gone before. While guided by the motto *Eruditio et Religio* for one hundred and forty-one years, the University continues "to change to meet changing conditions."
